PLATINUM HOUSE
WHERE LUXURY MEETS TECHNOLOGY

ITALIAN KITCHENS AND INTERIORS • SMART HOME SYSTEMS

Platinum House has combined a group of globally renowned companies and products to compliment any of your interior or technology desires in a one stop shop.

Platinum House has built a 6000 sq ft showroom and fitted it out with beautiful Italian kitchens, sitting rooms, furniture and bedrooms with wardrobes, a one of a kind bathroom, an awe inspiring dedicated Home Theatre with 7 bespoke designed cinema seats.

All complimented with the subtle and discreet integrated technology solutions by Platinum Vision. Full lighting control, multi room music, curtain and blind control all at the touch of a button through your smart phone or iPad. Whether it is a home – office – boat or multi dwelling project, Platinum House has the complete solution.

This is truly a unique experience.

Exclusivity with every touch

Home is a place where one should be at ease. Blending leisure and convenience, we install technology that allows you to control all the electrical functions in your home – from lights, sound, curtains which gives you complete control over your home environment. In addition, we design your home automation needs keeping energy efficiency in mind.

The entire commands are loaded on your iPad or smartphone, allowing you complete control of your system from any corner of your home. Be it distributed audio throughout your house or garden, whether you want some ambient lighting or if you're simply in the mood to relax, our home automation system can do it all for you.

P4

The reel luxury

For those who enjoy the big screen experience, we can craft a lavish treat for you at your home! Our highly capable cinema team can design home cinemas comprising of LED screens to custom installed projection systems giving you full HD quality, 3D & 4k viewing.

Superior displays with advanced audio systems and custom cinema seating are installed by the best in the business. Seating options range from sofas to low seats all the way to cinema seats whatever be your requirement or theme. The seats are given personal touch making our home cinema systems a comfortable work of art.

LIGHTING DESIGN
AND
SUPPLY DIVISION

Your mood, your lighting

Lights play an integral part of determining the ambiance of your home. Moreover, some rooms only offer solidarity ambient settings as it isn't possible to install multiple fittings for a single space. With our light, blind and A/C Control, this will become a passé. With integration and control of lighting from touch screens or wall switches that offer pre-set scenes to allow mood settings across your home. Creating an ambience will be just a button touch away. Allowing you to save and customize multiple scenes for a single room. Make a casual dinner to a romantic night or turn a gathering to an exclusive party – whatever be your mood, let the lights set the scene.

While implementing the solution, our team takes conscious efforts to make your home as energy efficient as possible while installing innovative features. Within areas of a building, it is possible to manage and control the temperature of specific spaces at the touch of a button.

Febal Casa's history has been crafted with passion, ambitious challenges and prestige. The syndicate's story started with the dreams of a dynamic young craftsman in the year 1959. Febal Casa is still making waves thanks to the Colombini Group who now owns this brand. They pride themselves in being associated with a concept of refined design, excellent quality and focus projected at a medium\high end market. They believe in being exclusive and exotic and have been part of homes around the globe for over five decades. Be it your kitchen or living space, allow Febal Casa to turn your house into a home.

<p>Fifty years of history spent at the top in the production of high-end contemporary kitchens make Rossana a benchmark brand in terms of planning, technology and quality for the entire sector of quality design. Rossana's strength lies in the fact that it has never limited itself to merely responding to the market; rather, it has dedicated itself to anticipation, research, creativity and development.</p>				
<p>Rossana kitchens are created to last through time. Kitchens beyond fashion and trends, designed with an obsessive attention to both technical and constructional detail. Culturally designed for only a few, but honestly priced and therefore accessible to many. Kitchens designed for an intelligent clientele, able to appreciate the flexibility of systems conceived to allow tailor-made personalisation. Systems whose intersecting components can be adapted to fit large or small environments. The entire product is more haute couture than pret a porter, more niche than mass, conceived ad hoc for each individual, rather than standardised for everyone.</p>

OUTDOOR FURNITURE

Easigrass is an artificial grass company with over 30 years experience in the synthetic turf market. Easigrass was founded and is head quartered from the UK. Easigrass supplies and installs synthetic grass for landscaping, sports, interiors, hotels, restaurants, events and trade shows. At Easigrass UAE pride ourselves on our vast experience gained from over three decades in the artificial grass market, not only in the UK, but also international markets including South Africa, New Zealand, Ireland, Spain and now the Middle East. We are passionate about the world of artificial grass and are constantly striving to improve what we do; we even have a full time research and development team

working on new products. We understand that the relentless heat in the Middle East is an important part of everyday life therefore all of our products have a UV defender applied to them so that they can withstand the intensity of the sun's rays. As well as the UV defender all of our products are lead free and free from any harmful chemicals. Everyday we strive to bring the best of British customer service to the Middle East so sit back and relax and we'll make your artificial grass experience as smooth and enjoyable as possible.
